The Garage Grid System

Our Garage Grid System can get you organised in a snap. You will be amazed at the flexibility these storage grids will give you once they are installed around the house. They are strong, look great and accommodate over 200 accessories that clip on and off. Garage Grids give you a lifetime of organising and reorganising as your needs change.

Made out of powder coated welded steel this system allows you complete flexibility to organise up, down or sideways without ever having to put a nail or screw in your wall again. The Garage Grid System is an economical way to organise. You can start with one grid or more and expand the grid system as your budget or needs increase.

Get Organised Get Garage Grids

Versatile

They work just as well outside as they do inside, wherever you need a clutter free area.

Looks Good

No matter how many grids you put up, this finely finished product always looks good.

Easy to Install

A level, a tape measure and a drill is all you need to handle most installations.

Welded Steel Strong

Our garage grids are tough hang the grids on your wall, hang whatever you want off the grids, Simple!!

What is a Garage Grid System ?

A Garage Grid system is made out of individual prefabricated steel panels, they easily mount to your existing inside or outside walls. Made of 7mm thick welded steel that has a baked on powder coat finish in Black or White. The grids come in three test proven sizes 1870 x 600mm, 1220 x 600mm and 560 x 600mm to accommodate most areas. They can be cut down to fit perfectly with a steel cutting saw blade. For more specifications or installation instructions call our toll free number.
